The Constabulary is also looking to communities to help set what your local Police should be doing and to ensure they are working effectively in the community. They need us to tell them what issues are affecting us the most. One of their aims is to increase confidence in the Police, as well as to make our Neighbourhood a safer place to live and work in. All they ask is that you spare just 5 minutes to complete this survey to give them a clear understanding of the issues that matter to you. The results will be used together with Police and partner agency data, to set the priorities for the next three months. To take part please use the website detailed below.
